05 LETTER FROM THE EDITOR

06 A VIBRANT REGION

Get to know the Charlotte Region, where affordability and lifestyle converge.

14 A CONNECTED REGION

Connectivity powers the Charlotte Region, supported by modern roads, expanding rail, and one of the world’s busiest airports.

20 A THRIVING BUSINESS ECOSYSTEM

Explore the companies, industries, and talent powering the Charlotte Region’s economy and its next wave of growth.

38 COUNTIES IN THE REGION

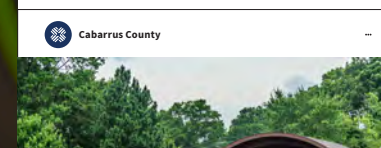

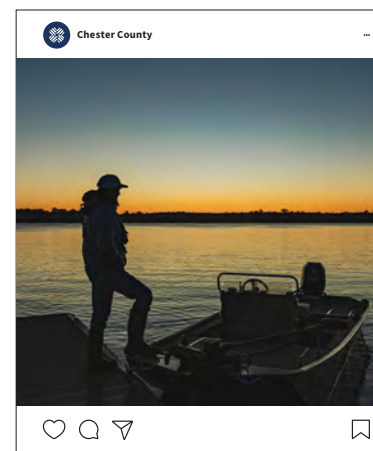

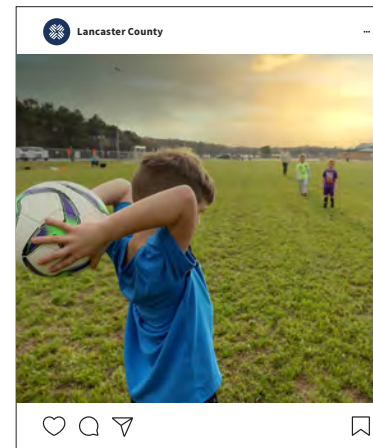

See how each county contributes to the strength and momentum of the Charlotte Region.

70 APPENDIX

Dive deeper into the data.

CHARLOTTE REGIONAL BUSINESS ALLIANCE®

A PORTRAIT OF PROGRESS

Progress in the Charlotte Region isn't a single story; it takes shape through bold ideas and long-term investments working together across communities. At its core is local leadership and regional collaboration, united around an economy that is thriving, competitive, and built for the future.

"Portrait of Progress" captures that shared momentum across our 14-county, bi-state region. Through a data-informed lens and real-world examples, it reflects the forces shaping the Charlotte Region today, from talent and infrastructure to innovation and quality of life.

Across the region, each county brings its own strengths, character, and role in the larger story. Viewed together, these perspectives reveal how distinct places work in concert to build a dynamic regional economy. Taken as a whole, "Portrait of Progress" offers a clear picture of a region in motion, grounded locally, connected regionally, and focused on what's next.

We're glad you're here and invite you to explore what makes Charlotte rise to the top.

Robert McCutcheon
President & CEO

ANNUAL POPULATION GROWTH BY COUNTY

2023-2024

Source: U.S. Census Bureau, 2024

BIG CITY ENERGY SMALL TOWN PRICES

Every day, 157 people choose to call the Charlotte Region home—that’s 57,300 people per year who seek a city that offers rich amenities, diverse neighborhoods, and an affordable quality of life.¹ Each new neighbor adds to the vibrancy of the Charlotte Region. They join the workforce, shop at small businesses, enroll their children in local schools, and become part of the region’s story.

The Charlotte Region’s cost of living remains below the national average, a key factor driving its status as one of the fastest-growing metros in the country.² An increasing mix of housing options, combined with affordable health care, utilities, and transportation, allows residents to enjoy a high quality of life, offering more living for less.

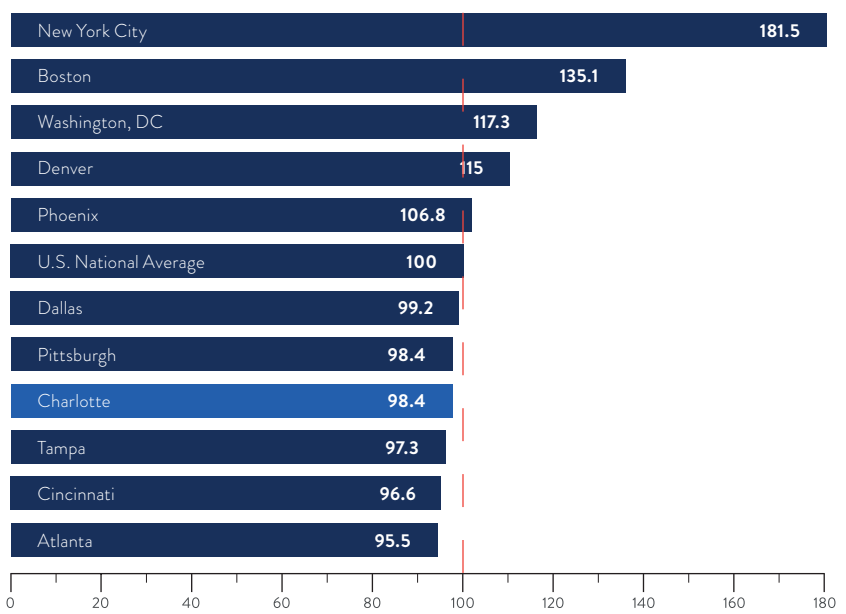

CHARLOTTE’S COST OF LIVING INDEX³

Using an indexed scale where the national average cost of living is 100, major expenses in Charlotte are more affordable than those in other U.S. cities:

- Home 85.2
- Car 94.2
- Health Care 99

COST OF LIVING INDEX

A PLACE TO CALL HOME FOR EVERYONE

Whether choosing between an apartment or single-family home, bustling crowds or wide expanses, the Charlotte Region offers distinctive home options for college graduates, growing families, retirees, and everyone in between. Mid-career professionals find community in the region’s many neighborhoods and suburbs, **where a 2,000-square-foot home ranges from \$250,000 in suburban communities to \$600,000 in the urban core on average.**⁴ Young professionals flock to the urban core where the average apartment rents for \$1,600 per month.⁵ Executives can choose from an array of neighborhood options, from golf courses to lakefront properties.

KEEPING PACE WITH RISING DEMAND

The Charlotte Region is confronting housing affordability head on, building over 18,400 multifamily housing units in the last year. This nearly 8% increase in housing stock represents the second-highest inventory boost among the largest U.S. markets.⁶

26,700

NEW HOUSING UNITS UNDER
CONSTRUCTION IN THE
CHARLOTTE REGION IN 2024.⁷

EDUCATION OPTIONS FOR EVERY FAMILY

Families moving to the Charlotte Region benefit from the highly ranked school systems and wide array of K-12 options available. **Across 21 school districts, more than 600 public schools and 55 charter schools serve 389,800 students annually.**⁸ Parents can choose from specialized curriculums, ranging from STEM pathways to foreign language immersion programs. And more than 150 private schools offer families alternative options, from faith-based academics to Montessori-style education.

CHARLOTTE-MECKLENBURG SCHOOLS: ROOM TO LEARN

How is North Carolina’s second-largest school district keeping up with growth? By leaning into it. North Carolina is accelerating its investment in public school education, building new classrooms and improving school infrastructure.

Investments in Charlotte-Mecklenburg Schools have resulted in:

\$3.5 B

SCHOOL UPGRADES

2017-2024⁹

533

NEW CLASSROOMS
PLANNED¹⁰

12.08%

GROWTH IN EXPENDITURES PER STUDENT IN NC
RANKING 2ND IN THE U.S.¹¹

CHILD CARE, YOUR WAY

The Charlotte Region offers a variety of child care options that fit any family’s needs. A robust network of child care solutions, from traditional day cares, to specialized centers, to in-home care, ensures that parents and parents-to-be can maintain and grow in their careers. **Traditional day cares throughout the region range in price from \$500-\$1,600 a month for infant care, and a promising public-private partnership is helping bring even more affordable solutions to families.**¹²

CLEVELAND COUNTY TRI-SHARE PROGRAM MAKES CHILD CARE MORE AFFORDABLE.

An innovative solution to providing quality child care in North Carolina, the Cleveland County Tri-Share program, launched as a pilot program that shares child care expenses equally between an employer, employee, and the State of North Carolina. This early-stage program is now offered across all counties in the state.

In the Charlotte Region, there's always something to discover. Locals spend their days biking greenway trails, boating on lakes, visiting museums, or packing arenas on game day. Fans cheer on the Carolina Panthers, Charlotte Hornets, Charlotte FC, Anthem Rugby Carolina, or any of Charlotte's four minor league teams.

An emerging foodie destination and home to North Carolina's only Michelin-star restaurant, Charlotte offers flavors for every palate. With a diversity of cultures, traditions, and community institutions, everyone can find their place, whether that's at one of the many cultural festivals celebrating heritage from Greek to Hispanic to Asian or one of the nearly 3,900 religious congregations in the Charlotte Region.¹³

O2 | A CONNECTED REGION

EASILY ACCESSIBLE BY ROAD, AIR & RAIL

Charlotte sits at the center of the East Coast, making it easy to reach major markets both domestically and globally. More than 1,000 miles of interstate connect the region, providing accessibility to the Eastern Seaboard via Interstates 77 and 85 and to the West Coast via Interstate 40.¹⁴ One-third of the U.S. population can be reached within a day's trucking drive, making Charlotte an ideal hub for logistics and distribution.¹⁵

A GLOBAL GATEWAY

Fortifying the region's connectivity are two passenger-service airports: Concord-Padgett Regional Airport (JQF) and Charlotte Douglas International Airport (CLT). JQF services 16 nonstop destinations along the East Coast. CLT services over 58 million passengers annually, with nonstop flights to all major domestic markets and several international markets in Europe, Canada, and Latin America.¹⁶ **CLT's connectivity and central location provide unrivaled convenience and reliability for businesses throughout the region.**

The Charlotte Region also offers multi-channel options for shipping freight, with convenient connectivity to the ports of Wilmington, Charleston, and Savannah. Charlotte's inland port strategically connects customers to distribution corridors along Interstates 77 and 85, with one-day turnaround service to the Port of Wilmington. Further easing freight transit are Charlotte's two intermodal resources, CSX's intermodal terminal and Norfolk Southern's 300-acre intermodal facility located at the Charlotte airport. Located between two active runways, the facilities move freight efficiently, shipping it to the next destination with ease.

PREPARING FOR FUTURE GROWTH

Charlotte’s transportation network is a result of planning and forward thinking. Nearly three decades ago, Charlotte launched its first volunteer-run trolley service. Since then, multiple investments have resulted in a 19-mile light rail system known as the Lynx Blue Line. The only light rail system in the Carolinas, the Blue Line connects Charlotte from north to south.

Fast-growing regions must invest in transportation to keep people moving and commerce flowing, and Charlotte is doing just that. With dozens of planned infrastructure improvements, the region is strengthening its efficiency and planning ahead for expected population growth.

NC IS THE TOP STATE FOR BUSINESS IN THE COUNTRY

For the third time in four years, the Tar Heel State has claimed the top spot, with the Charlotte Region leading the way. With a GDP of approximately \$255 billion, it's no surprise that Charlotte is one of the Southeast's largest economies.²¹ **The region boasts a diversified economy with financial services, business services, and manufacturing making up a significant portion of economic output.** A labor force of 1.6 million people fuels innovation and productivity across the region's 100,000 businesses. And nearly 200,000 new jobs have been added to the regional economy since 2020, with every industry category experiencing growth.²²

POWERING INNOVATION

Research centers are fueling discovery across the Charlotte Region. Students have a robust network of community colleges, universities, and workforce development organizations, which offer training in industry-developed curriculums, certifications, and apprenticeship programs. A range of leading research institutes partner with companies across the region to test and advance new technologies.

UNC CHARLOTTE EPIC
The Energy Production and Infrastructure Center (EPIC) is a highly collaborative industry/education partnership that produces an adeptly skilled workforce through the expansion of energy engineering studies.

NC FOOD INNOVATION LAB
A collaboration between North Carolina State University and the North Carolina Department of Agriculture, the NC Food Innovation Lab is a state-of-the-art research facility that helps food and ag-tech companies test and scale new products.

UNC CHARLOTTE BATT CAVE
The North Carolina Battery Complexity, Autonomous Vehicle and Electrification Research Center (BATT CAVE) drives research and innovation in battery technology for applications in autonomous vehicles, infrastructure, and intelligence systems.

THE POLYMERS CENTER
The Polymers Center works with businesses in the plastics industry. The center provides subject matter experts in a state-of-the-art testing facility with modern injection molding and extrusion compounding equipment.

A HUB FOR FINANCE

As the second-largest financial center in the U.S., Charlotte’s financial sector is the region’s leading driver of GDP. With Bank of America, Truist, and Brighthouse Financial headquartered here, the region’s financial services industry rivals global hubs, offering a world-class workforce at a far more competitive cost.

A HOME BASE FOR CORPORATE HQS

Financial services isn’t the only industry that calls Charlotte home. **The region is home to 19 Fortune 1000 headquarters** across industries like retail, food services, manufacturing, aerospace, and technology. Companies anchor in the Charlotte Region because of its strong talent base and quality of life that retains top workers. Whether a prospective company is considering a regional, U.S., or global headquarters, the Charlotte Region checks all the boxes.

- TOP TALENT**
With a concentration of talent 75% higher than the national average, Charlotte attracts talent from all over to work for some of the world’s largest companies.
- BUSINESS-FRIENDLY**
A low overall tax burden and low regulatory environment ensures a higher bottom line.
- CONNECTIVITY**
Executives are a short flight away from all company locations with nonstop destinations to all major domestic markets and regional markets across the Southeast.
- CLIMATE**
The Charlotte Region experiences a mild climate and has a low risk of natural disasters, providing peace of mind and stability for operations.

A NEW DESTINATION FOR HEALTH TECH

North Carolina is one of the nation’s leading life sciences hubs. **The Charlotte Region is executing a strategy focusing on health and surgical technologies and medical device innovations to build even further upon the state’s success.** Anchored by Advocate Health’s campus at The Pearl, Charlotte is already pioneering new medical breakthroughs. Other health care research centers in the region, like the MUSC Lancaster Regional Health Network Research Center, are accelerating medical progress through focused investigation, hands-on clinical collaboration, and partnerships that bring new ideas into practice.

SUCCESS STORY: ELI LILLY

Eli Lilly invested \$2 billion in a new manufacturing campus in Concord, dedicated to producing injectable medications and devices. Originally announced as a \$1 billion project, Lilly doubled its investment to \$2 billion while the site was still under construction. The facility, the company’s second manufacturing site established in North Carolina, was chosen for its **proximity to top universities with strong STEM programs**, convenient access to major transportation infrastructure, and a highly skilled local workforce with expertise in advanced manufacturing technology. Since the announcement in 2022, the company has well exceeded its hiring target of **600 jobs**.

SUCCESS STORY: THE PEARL

Opened in June 2025, The Pearl is a transformational public-private partnership advancing top-tier medical training and cutting-edge research. Designed to spark collaboration, fuel economic growth, and deliver real-world solutions for Charlotte and beyond, The Pearl is already home to some of the most innovative names in medicine and health tech:

IRCAD NORTH AMERICA, the world’s most advanced surgical training institute, opened its North American headquarters at The Pearl where it will train more than 8,000 surgeons in its first year.

STRYKER will help equip IRCAD’s training center with its advanced medical devices and robotic technologies, aiming to elevate the skill levels of physicians and technicians.

SIEMENS HEALTHINEERS has launched its first U.S.-based experience center at The Pearl where it will showcase the latest technologies in imaging, diagnostics, cancer care, and advanced therapies.

A HEALTHY TALENT PIPELINE

Health care is the Charlotte Region’s largest industry by employment, with giants like Advocate Health, Novant Health, the Medical University of South Carolina, and CaroMont Health providing services throughout the region and beyond. The region’s 145,000 health care and life sciences workers are skilled practitioners, nurses, clinicians, and administrative support **workers who offer transferable skills in health technology, corporate office, and manufacturing jobs.**

Wingate’s pharmacy school is among the top pharmacy programs in NC. It offers extensive hands-on learning as well as dual degree options for a Masters in Business Administration or Public Health.

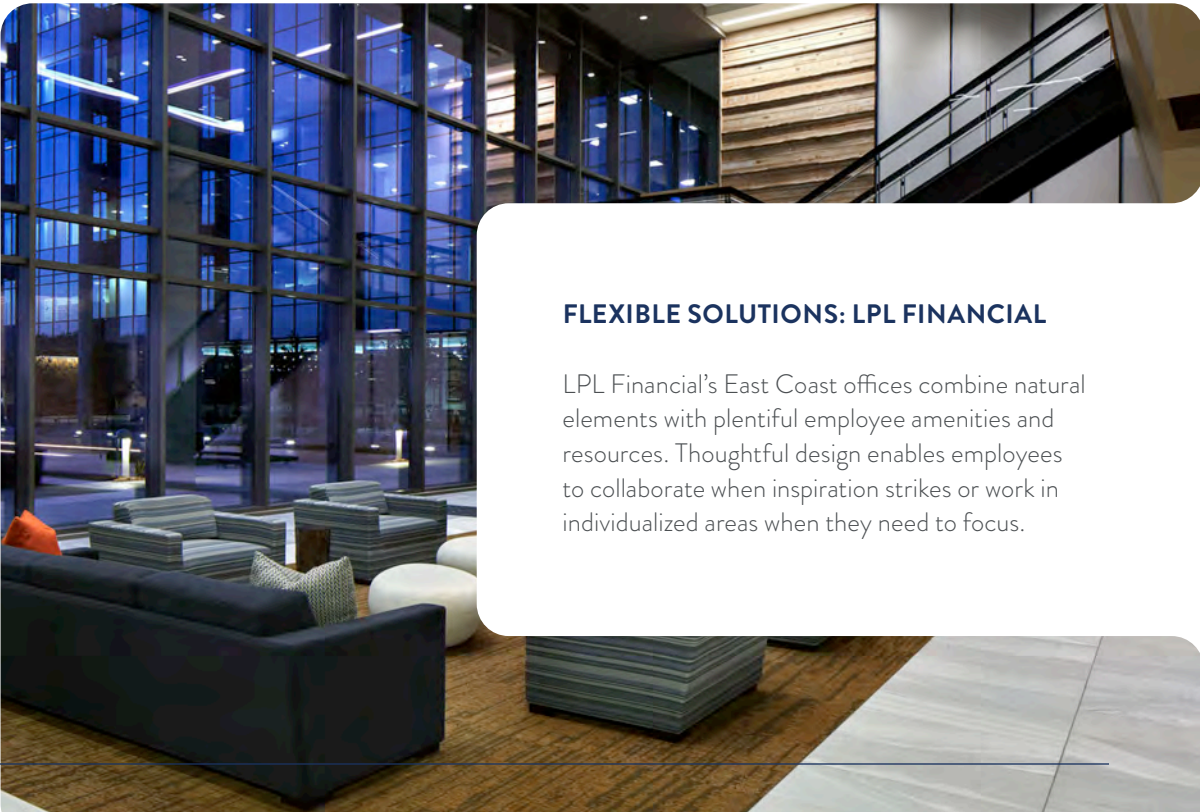

WORKING IN THE CHARLOTTE REGION

Page sponsored by:

A BRAND BROUGHT TO LIFE: DP WORLD

DP World’s office space blends comfort, flexibility, and brand expression to support the company’s rapid growth across the Americas. Tailored furniture solutions promote agility, teamwork, and a strong sense of identity.

FLEXIBLE SOLUTIONS: LPL FINANCIAL

LPL Financial’s East Coast offices combine natural elements with plentiful employee amenities and resources. Thoughtful design enables employees to collaborate when inspiration strikes or work in individualized areas when they need to focus.

The workplace is a strategic tool to drive people and business performance. The 157 people moving to the Charlotte Region each day desire office spaces that inspire creativity and innovation. Leaders across the region’s target sectors – manufacturing and logistics, financial services, and health and life sciences – need human-centered workplaces that inspire engagement and performance.

The region’s steady job growth and billions in capital investment show that growth is not just about buildings; companies thrive in Charlotte because their buildings help people do their best work.

FINANCIAL SERVICES

Charlotte is one of the country’s strongest banking hubs and a place that thousands of finance, insurance, and tech professionals call home. The real advantage is how people experience work, not just where the tower sits.

- 64%** of banking leaders say hybrid work improves talent retention
- 45%** of financial workers report that poor office design reduces focus
- 20%** lift in knowledge-sharing from offices with small team rooms

LIFE SCIENCES & HEALTH TECH

Life sciences and health tech rely on people who make high-stakes decisions in fast-moving environments. Their workplaces must support precision, recovery, and clear thinking as they move between lab, clinic, and office.

- 70%** of industry workers say proximity of lab and office improves speed
- 22%** more satisfaction with upgraded research spaces
- 48%** say unclear zoning increases stress

MANUFACTURING & LOGISTICS

As manufacturing and logistics scale back up across the Carolinas, the region’s supply chain depends on the people engineering breakthroughs and coordinating every hand off. Spaces that support frontline teams yield innovation.

- 30%** faster problem solving in digitally-enabled plants
- 40%** of engineers prefer hands-on prototyping space
- 47%** say better planning rooms strengthen decision making

A FORCE FOR INTERNATIONAL BUSINESS

From global brands expanding their footprints to small businesses shaping neighborhood identities, the Charlotte Region is built by companies of every size. Together, they create jobs, spark innovation, and strengthen the Charlotte Region.

The Charlotte Region has become a major hub for foreign direct investment (FDI), attracting more than \$2 billion in investment and creating more than 5,000 jobs since 2022. A large workforce supported by European-style apprenticeship programs, direct flight connectivity to international markets, and a welcoming ex-pat community are key advantages that attract foreign companies to the Charlotte Region.

THRIVING SMALL BUSINESS ECOSYSTEM

The Charlotte Region is a hub where small businesses flourish. **With a vibrant community of over 40,000 small businesses, our region is a testament to the entrepreneurial spirit and innovation that drives economic growth.** The CLT Alliance Foundation supports entrepreneurs and employers with the goal of growing businesses and business leaders.

The region offers many resources for entrepreneurs, including startup accelerator and small business programs:

COUNTY SMALL BUSINESS CENTERS

Every county in the Charlotte Region has a small business resource center, each of which provides training, guidance, and business counseling for the small business and entrepreneur communities.

UNC CHARLOTTE CO-LAB

CO-LAB at UNC Charlotte Center City is an innovation and entrepreneurship hub. Serving as an academic and research center for the city's North Tryon Tech Hub, CO-LAB incubates entrepreneurs and small businesses and drives economic growth.

REVTECH LABS

An accelerator program for fintech and insurtech companies, RevTech Labs has contributed to creating 1,000+ jobs and raising \$2 billion in capital for participating startups.

UNIVERSITY OF SOUTH CAROLINA PALMETTO COLLEGE AI INNOVATION LAB NETWORK

Located in Lancaster County, the AI Innovation Lab Network provides free training in generative AI and certification programs to local residents.

BUILT ON TALENT

In the Charlotte Region, a strong workforce fuels innovation, drives expansion, and keeps the economy moving at full speed. Because of the region's diversified economy, companies can find a range of workers with advanced skillsets from production to engineering to business administration to data science and artificial intelligence. **Much of the workforce is shaped by the region's top colleges and universities, which partner closely with local companies to build curriculums that prepare students to meet industry needs.**

ALEXANDER COUNTY

CITIES/TOWNS

Taylorsville, Hiddenite, Bethlehem, Stony Point

MAKE ALEXANDER COUNTY HOME

Nestled in the foothills of western North Carolina, Alexander County offers the perfect balance of small-town charm and strategic access. Just a few hours from the Eastern Seaboard and positioned near Interstates 77, 40, and 85, the county is less than an hour from North Carolina's largest international airport. With an average one-way commute of only 27.7 minutes, residents enjoy both convenience and quality of life.

A MANUFACTURING HUB

In Alexander County, innovation meets craftsmanship. As a robust manufacturing center, the county offers businesses low taxes and a dedicated workforce. Industry and education work hand in hand to close skills gaps and prepare talent for the region's evolving economy. The Alexander Applied Technologies Industrial Training Center ensures workers are trained for the latest advancements across manufacturing and related sectors. Here, if it can be made—it can be made in Alexander County.

ON THE WEEKENDS

Alexander County blends a peaceful rural setting with quick access to urban amenities, set against some of the most beautiful landscapes in North Carolina. Weekend adventures include the Rocky Face Mountain Recreational Area, a destination for hiking, rock climbing, and sweeping views, and the Brushy Mountain Motorsports Park, which has more than 1,700 acres with over 100 miles of dirt bike trails nestled in the mountains.

CHESTER COUNTY

CITIES/TOWNS

Chester, Richburg, Great Falls, Fort Lawn, Lowrys, Lando

A WIDE-REACHING WORKFORCE

Situated between the Charlotte and Columbia, SC metro areas, Chester County offers a workforce of 1.5 million people within a 45-minute radius.

NEED RAIL? CHOOSE CHESTER

Chester County has ample available rail-served sites and is one of the few counties in the southeastern U.S. that offers dual-rail service through short line carrier L&C Railways, which connects to both Norfolk Southern and CSX.

MORE HOUSES, MORE RETAIL ATTRACTION

Chester County has seen an uptick in residential growth with over 4,000 new home permits approved, leading to a new strategic retail initiative for the county. Chester County is looking to attract more retail options for its growing community and has partnered with Retail Strategies to help lay the groundwork.

OUTDOOR RECREATION

In addition to industry, Chester County boasts its thriving outdoor recreation activities; including a 2.25-mile stretch for whitewater rafting (both Class IV and V rapids) as well as three state parks.

FIND YOUR PLACE HERE

A welcoming community with international appeal, Cleveland County is known for its accessibility, affordability, and innovation. Nestled in the sweet spot between Greenville, SC, and Asheville, NC, Cleveland County is dubbed “Charlotte’s Backyard” and offers attractive advantages with access to more than half of the country in just 24 hours. Progressive industries enjoy the perks of a thriving business environment coupled with accessibility to a growing talent pool, global connections, ample resources, and a multitude of community assets.

ADVANCED TECHNOLOGY CENTER

The Advanced Technology Center provides a state-of-the-art training space for students interested in high-demand, advanced technology programs such as Automation Engineering, Industrial Systems, Computer Integrated Machining, and Mechanical Drafting (CAD). This 44,000-square-foot facility, located on the campus of Cleveland Community College, is also home to the Cleveland County Economic Development Partnership, workforce training, and technical programming. The Advanced Technology Center is designed for local manufacturers to train current and future employees specifically for jobs that are available in Cleveland County.

MADE IN GASTON

Gaston College's Kimbrell Campus in Belmont is home to both the Fiber Innovation Center and Textile Technology Center, which support the global textile industry with hands-on prototyping, testing, and training. These facilities develop and test advanced fibers and products for the advanced textile industry, including crucial personal protective equipment, smart textiles for the defense sector, and many other proprietary products developed by national and international clients.

ENJOY THE OUTDOORS

Situated along the Catawba River, Gaston County has many outdoor recreational activities available for its residents and visitors. With over 40 hiking and biking trails, river access for flat water paddling, and 80 parks within the county, access to the outdoors is abundant. Crowders Mountain State Park and Kings Mountain State Park are popular camping and climbing spots for avid outdoor enthusiasts, while the Daniel Stowe Conservancy offers a relaxed and scenic stroll through over 400 acres of beautifully maintained gardens.

STORIED APPRENTICESHIP PROGRAM

Gaston County's long heritage as a hard-working manufacturing center has been enhanced in recent years with a steady growth in high-tech manufacturing, service-related firms, and expansion of retail and commercial businesses. The county replenishes its workforce through programs like Apprenticeship 321 at Gaston College, which just celebrated its 10th year in 2025. One of the first colleges to offer an apprenticeship program, Gaston College supports apprenticeships for approximately 80 students each year in partnership with 25 local employers.

YORK COUNTY

CITIES/TOWNS

York, Rock Hill, Fort Mill, Clover, Lake Wylie, Hickory Grove

DESIGNED FOR LIVING WELL

York County offers a quality of life that people genuinely connect with. Families spend weekends on the trails at the 2,100-acre Anne Springs Close Greenway, enjoy the water on Lake Wylie, and gather in vibrant places like Kingsley and Riverwalk. The county is known for strong schools, safe neighborhoods, and communities that feel welcoming from day one. Employees can choose from urban, suburban, or waterfront living while staying close to Charlotte and major employment centers. It all adds up to a place where people want to build their careers and their lives, which makes recruitment and retention easier for companies.

INNOVATION + GROWTH MOMENTUM

York County is investing in mobility and connectivity that support both quality of life and long-term economic growth. Efforts to expand trail networks, improve access between key communities, and create safer, more walkable and bike-friendly corridors are strengthening how people move throughout the county. These improvements not only enhance daily life for residents but also make the area more attractive to companies looking for forward-thinking, livable communities where their employees can thrive.

TALENT & TOMORROW: HIGHER ED POWER IN YORK COUNTY

York County's higher education partners create a steady flow of talent for local employers. Winthrop University awards more than 1,200 degrees each year, and York Technical College adds another 1,200 completions with a 94% placement rate. Together, they supply over 2,500 graduates annually, giving companies a dependable pipeline of skilled, job-ready people who want to build their careers here.
